<https://www.linkedin.com/in/kavishjadon/>

PROFESSIONAL SUMMARY

I am a self-taught software developer with over 4+ years of experience in building and maintaining web applications. My expertise lies in Next.js, Node.js, and TypeScript, with a focus on delivering high-quality, scalable, and user-friendly web applications.

CORE COMPETENCIES

- ✓ Next.js, React, Redux, TypeScript
- ✓ Jest, Cypress, Vitest
- ✓ Docker, Electron, Puppeteer
- ✓ Three.js, Unity, Godot
- ✓ Node.js, GraphQL
- ✓ MongoDB, MySQL
- ✓ Git, Linux, Postman
- ✓ HTML, CSS, JavaScript, Tailwindcss

PROFESSIONAL EXPERIENCE

Experian, Hyderabad

Full Stack Developer | September 2022- Present

- Developed a web-based "applications" management platform in the credit finance sector.
- Implemented JSON configuration for dynamic customization of appearance and functionality
- Ensured that the application is highly adaptable and versatile, with no limitations on backend API integration.

Codemonk, Bengaluru

Software Engineer | July 2022 - Present

- Contributed to the evolution of RhythmUI.
- Created RhythmUI CLI and a well-received React starter project.
- Overhauled the RhythmUI CLI within 48 hours, optimizing its speed, ease-of-use, and efficiency.
- Oversaw multiple projects, ensuring optimal code quality and strict adherence to industry standards.
- Secured a development position at Experian through Codemonk's consulting services.

Synergyworks, Chandigarh

Full stack developer | Dec 2021 - July 2022

- Played a crucial role in the development of two dashboard projects for the healthcare sector.
- Developed a user-friendly online dashboard for consulting with doctors.
- Developed a comprehensive dashboard that allowed consultations with various health experts with features such as appointment scheduling, video consultations, and a subscription model.
- Developed both frontend and backend development of the projects.

Zotto, Denmark

Full stack developer | Nov 2020 - Dec 2021

- Developed a Node.js project that integrated third-party APIs to simplify payment and banking services.
- Developed APIs that became an integral component of the company's projects and enabled seamless transaction tracking for both online and offline businesses.
- Created a comprehensive sales dashboard that aggregated transaction data from the Node.js APIs.
- Developed notable features such as payment link creation, subscriptions, invoicing, and money transfers.
